

A•R•T® Night Reconstructor

A•R•T Night Reconstructor Item No. 5171

A•R•T Skin Care System Item No. 3131

(Includes Day Activator, Night Reconstructor, and Gentle Foaming Cleanser)

Body System Supported: Skin

Young Living's Age Refining Technology (A•R•T) Night Reconstructor contains the superior endonuclease enzyme that uses the energy in your body to cut damaged DNA segment, copy the original segment before damage, and insert the new segment back into the correct place in the cell's DNA structure. This formula is also enriched with the Anti-Aging Peptide Complex, wolfberry seed oil, and three skin-soothing essential oils, German chamomile (*Matricaria recutita*), sandalwood (*Santalum album*) and frankincense (*Boswellia carteri*). This powerful combination of ingredients helps reduce the look of fine lines and wrinkles, diminish age spots, even skin tone, and increase the elasticity and density of your skin. This medium-bodied, water-based face and neck cream contains enhanced moisturizers for maximum hydration while you sleep.

Ingredients

A base similar to Day Activator, Young Living's Night Reconstructor contains even more *Lycium barbarum* seed oil for the nourishing properties of Ningxia wolfberries. Wolfberry seed oil is a treasure trove of essential fatty acids like linoleic acid, GLA (gamma-linolenic acid), and oleic acid. Like Day Activator, the Night Reconstructor

cream has a full complement of antioxidant vitamins and rich emollients to protect and hydrate your skin.

How to Use

Apply in the evening after cleansing. Using fingertips, massage in a generous amount (usually two to four pumps) of Night Reconstructor over face and neck regions as needed. For maximum benefit, Night Reconstructor should be used with Young Living's Gentle Foaming Cleanser and Day Activator Cream.

Important Information

Pamper your skin and restore its beauty! A vital component of the A•R•T system, Night Reconstructor uses the endonuclease enzyme to renew DNA while you rest. An exclusive Anti-Aging Peptide Complex, featuring Matrixyl™ 3000 and vitamin C, reduces the look of fine lines and wrinkles by improving elasticity and increasing the thickness of the skin. This nighttime formula also delivers a proprietary blend of pure essential oils to help sustain DNA recovery while providing a natural, light, refreshing fragrance. Add the power of the legendary wolfberry seed oil, known for its skin hydrating properties, and you have the formula for a truly unique and effective night cream. Wake up feeling refreshed and revitalized with Night Reconstructor and recapture your youthful appearance.
