

Home Diffuser

Product Summary

Young Living's Home Diffuser is a state-of-the-art essential oil atomizer that can diffuse any essential oil from peppermint to Valor®.

History of Diffusing

The term "aromatherapy" was coined by the French chemist René-Maurice Gattefossé in the early 1920s. Gattefossé spent his life devoted to essential oils and their healing properties. However, for more than 6,000 years prior to Gattefossé, aromatherapy had been used by the Egyptians, Romans, and the Greeks. Imhotep, an Egyptian physician, suggested that oils be used for massage, bathing, and embalming the dead. Hippocrates, known as the father of modern medicine, used aromatic smoke and vapors to purge Athens of the plague.

Today, much has been theorized regarding the effects of diffusing essential oils, which can be considered similar to the aromatic smoke used by Hippocrates. It has been hypothesized that when essential oils are diffused, they can increase atmospheric oxygen by releasing oxygenating molecules into the air. Not only can essential oils increase oxygen in the atmosphere, they also increase the body's ability to transport oxygen

into the cells. The lipid-soluble structure of essential oils allows them to easily penetrate the cell membranes of the nose and enter into the bloodstream. Once in the bloodstream, the oils can help transport oxygen and nutrients into the cells.

Primary Benefits

- + Transform your surroundings: Create a relaxing, spa-like atmosphere or instantly brighten the mood of your home or office.
- + Eliminate odors: Remove lingering smells without resorting to synthetic air fresheners.
- + Protect your family's health: Safeguard your family's health by detoxing your home from harmful household chemicals.

What Makes This Product Unique?

Young Living's Home Diffuser combines the latest in diffuser technology with increased usability. By breaking up a mixture of water and essential oil into millions of micro-particles, the Home Diffuser disperses an aromatic mist into the air, activating the beneficial constituents found in Young Living Therapeutic Grade™ essential oils. The diffuser comes complete with continuous and internal timer settings and the option to enjoy its soothing light system. Ideal for diffusing any of your favorite essential oils, it's the perfect addition to any room in your home.

Home Diffuser

Who Should Use This Product?

Safe, attractive, and easy to use, the Home Diffuser is ideal for anyone who wants to experience essential oils in any room of their home.

How To Use

Using clean filtered water, add one cupful (8 oz.) to the bowl. Water should reach the top of the level indicator on the side of the bowl. Unscrew cap and add water to tank reservoir; replace cap. Add 15–20 drops of any essential oil single or blend into bowl. Plug the adapter into the socket at the rear of the diffuser and then plug into an 110VAC power outlet. Do not power the diffuser until the bowl is correctly filled with water.

Home Diffuser Rating

Durability: Designed for daily use, the Home Diffuser is made from polypropylene composite that is resistant to essential oil staining. Its durable electronic wiring is separated from the essential oil and water and is made to last.

Portability: The Home Diffuser is made to be an attractive addition to your home or office; it's not recommended to move the diffuser while it is operating.

Aroma Coverage: Depending on which essential oil is being used, the aroma from the Home Diffuser will fill a 700-square-foot area.

Noise: The Home Diffuser is virtually silent; all you may hear is a faint hum from the ultrasonic fan.

Therapeutic Value: The Home Diffuser can run for hours on just a few drops of oil. However,

the more oil you put in the diffuser, the more oil will be dispersed in the air for your therapeutic needs.
